**Subject: Individual interviews as part of ECHA/2022/512**, Collection and review of information on nanomaterial-based and nano-enabled plant protection products, biocidal products and fertilising products

## TO WHOM IT MAY CONCERN

The European Chemicals Agency (ECHA) has commissioned, as part of the activities of the European Union Observatory for Nanomaterials (EUON), a study on the collection and review of information on nanomaterial-based and nano-enabled plant protection products, biocidal products and fertilising products. The study is being undertaken by Innovamol Consulting Srl under contract ECHA/2022/512.

The study will be conducted as a systematic literature and documentary review on nanoforms of (active)substances and delivery systems of the corresponding formulations used in biocidal products, plant protection products and/or fertilising products. In addition, this study involves the collection of information from key stakeholders across the EU (and beyond) through questionnaires and interviews that the interviewees may be willing to share.

I would be grateful for any assistance that you are able to provide to Innovamol Consulting Srl as they collect information and data to inform the analysis in this study. All queries concerning this assessment should, in the first instance, be addressed to Innovamol Consulting Srl.

Your replies, and the results of the assessment, do not relate to any regulatory requirements or actions by ECHA. All the information collected as part of the above task will be treated in accordance with the confidentiality provisions of the contract. Therefore, Innovamol Consulting Srl will not use this information for any purpose other than to implement the contract, nor disclose it directly or indirectly to any third party.

Your personal data will be processed by Innovamol Consulting Srl solely for the purposes of the contract with ECHA. For further information, please refer to [ECHA's privacy rules](#) and [the privacy statement](#) regarding the processing of personal data in the context of stakeholder surveys.

Please also note that Innovamol Consulting Srl acts on its own account when performing the services commissioned by ECHA, and the opinions expressed by Innovamol Consulting Srl in the context of the study/interviews do not therefore, represent the opinion of ECHA.

Should additional information be required you may wish to contact the EUON team at [nano-observatory@echa.europa.eu](mailto:nano-observatory@echa.europa.eu).

Thank you in advance for your cooperation.

Yours sincerely,

e-signed
